Arts and Lecture: The Bright Future of Lighting by Shuji Nakamura

4/28/2015 - 7:30PM - UCSB's Campbell Hall

The Bright Future of Lighting

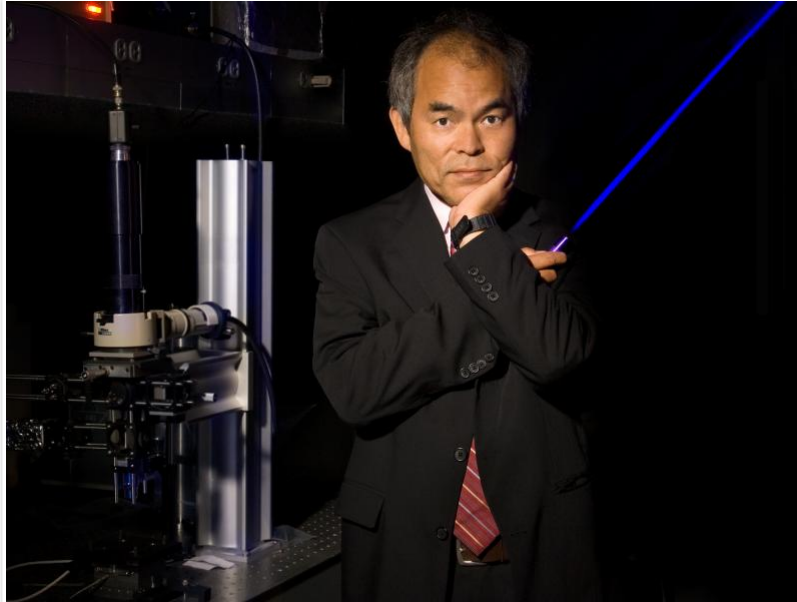

UCSB materials professor and 2014 Nobel laureate Shuji Nakamura to lecture on the development of the bright blue LED

(Santa Barbara, Calif.) — Shuji Nakamura, UC Santa Barbara professor of materials, 2014 Nobel laureate in physics and inventor of the bright blue LED, will speak at UCSB's Campbell Hall Tuesday, April 28. His lecture, "Invention of Blue LED, Laser and Solid State Lighting," will begin at 7:30 p.m. It is free and open to the public.
