

ILLUMINATING ENGINEERING SOCIETY

MISSION SECTION

Emerging Lighting Control Technology

Butler Events Center
3744 State & Hitchcock
Tuesday, Feb 21, 2012
6PM

Program

Enjoy Appetizers and purchase wine or beer while visiting our exhibitors' Illumination Control displays featuring:

Watt Stopper + Douglas + Lutron + Crestron + Acuity Brands + Philips Controls

Rick Miller will present a 90 minute AIA accredited seminar emphasizing that it is no more 'business as usual' and he will share his knowledge of **Emerging Lighting Control Technology**.

1. Self commissioning sensors, individually controllable devices, plug & play connections and components, GUI and dashboards, and wireless systems.
2. The importance of written control narratives, and what to expect with Title 24 - 2013.
3. Overview of lighting control strategies, components and systems.

Featured Speaker

Rick Miller, PE, LC - President - [RNM Engineering](#)

President - Illuminating Engineering Society Mission Section

With more than 35 years of electrical engineering experience, Mr. Miller has recently focused on commissioning of building electrical and lighting systems, and on promulgating the benefits of full scale lighting control systems. He has taught lighting design at the Pacific Energy Center and at the Chicago Lighting Institute and he has produced decorative and utilitarian award-winning lighting

designs.
